Silver at the Lowest Point Ever Reached.

Some Hope Yet For a Tariff on Foreign Lead Ore.

NEW YORK, Feb. 22.—Silver, 62 3/4; Lead, \$3.10.

LONDON, Feb. 21.—Bar silver dropped to 28 1/2 pence per ounce today, the lowest price ever reached.

NEW YORK, Feb. 21.—Erastus Wiman, the millionaire, capitalist and railroad magnate, was arrested today on a warrant charging him with forgery. In default of bail, he was committed to the tomb. Two indictments were found against Wiman by the grand jury today. The total amount involved in his irregularities is over \$225,000. The complaint against him is R. G. Dan, President of the Mercantile Agency Association. The news that Erastus Wiman had been arrested on a serious charge fell like a thunderbolt on the ears of the people throughout the country. Wiman admits that he has made a blunder but refuses to make any public statements.

A special from Rio Janeiro last night says: "The insurgents refused to allow a waterboat alongside an English merchant ship. The Captain of the ship appealed to the Commander of the British squadron for safe conduct of the boat, and the British Commander refused. The Captain of the English vessel then went to Admiral Benham, stated the case and asked for protection for the water boat. Admiral Benham promptly granted the English Captain's request and his boat was conducted under the American flag. The rebels did not fire on the boat.

The British squadron is roundly denounced. It has come to be a common saying that all nationalities must seek protection in the bay from the American squadron.

The Argentine batteries destroyed by the rebels during the battle of February 9th, have been restored. The rebel cruiser, Aquidaban, left the bay at four o'clock this morning to join the Republic, the latter having on board Admiral De Mele.

The Aquidaban got under way during the darkness, and at a speed of eight knots, steamed through the channel and towards the harbor as if no such thing as torpedoes and submarine mines were in existence. When near by the forts at the entrance of the bay the ship was discovered and the garrisons called to arms. A hot fire was soon directed upon her but the Aquidaban steamed steadily ahead and succeeded in passing the forts although struck several times.

It is reported that the two rebel warships have gone in search of the dynamite vessel Niteroi, and that the latter is not very far off. One or more foreign vessels will follow the Aquidaban and Republic to witness the engagement.

PHILADELPHIA, Feb. 21.—Pennsylvania, with ten counties to hear from gives Grover, Republican for Congressman 110,478 plurality. When the returns are all in it is believed Grover's plurality will be nearly 100,000 the largest in the history of the party in the State. The Republican State Chairman claims the State by 175,000. The high watermark heretofore was 135,146.

WASHINGTON, Feb. 21.—Senator Vest has shown his hand in the Senate Finance Committee and is understood to be vigorously opposing proper protection to lead ores. Hauser of Montana has been working with Vest for several days, but the results up to date, have not been flattering. It must not be forgotten that Vest comes from Kansas City, and that the smelting interests there is much interested in the Mexican ore business. Friends of lead ore believe still that they will get their one cent on lead ore in spite of the opposition of Vest and McPherson. Voorhees, and Jones of Arkansas are both committed to an adequate duty on lead ores, and the entire Republican majority of the committee will vote for the amendment. Senators Shoup and Dubois are working hard and pulling every string for the mining interests. Both have confidence that the bill as reported will take care of lead.

TELEGRAPHIC NOTES.

CHICAGO, Feb. 19.—Miss Annie Cook, aged 50, a cousin of Jefferson Davis, died in want in a room on Wells street this morning of paralysis. She worked in Chicago as a seamstress in a corset factory, arriving here eighteen months ago from her mother's home, Plainfield, Ind.

NEW YORK, Feb. 19.—Joseph Keppler, the caricaturist, editor and proprietor of Puck, died to-night at his residence, aged 59 years. The immediate cause of death was heart failure, resulting from a complication of spinal and lung troubles.

DENVER, Colo., Feb. 19.—Special to Tribune.—The Utah & Los Angeles Air Line Railway Company was today incorporated here, with \$100,000 capital, to build a railroad from Salt Lake to Los Angeles. The incorporators are: Captain Charles Foxwell, George A. Evans, B. C. Hick, A. B. Smith, and C. F. Avery, all of New York City.

The route given in the articles of incorporation indicates that the connection will be made with the Nevada Southern and At-

lanta & Pacific. The articles say the line will connect at Salt Lake with the Rio Grande Western, but the officers of the latter disclaim any interest in the project.

WASHINGTON, D. C., Feb. 17.—The date of hearing the suit of Madeline Pollard against W. C. P. Breckinridge was today set for March 8th. Testimony has been taken by both parties for some time past.

Some anxiety was excited in naval circles by the report that smallpox had broken out on the United States steamer "Baltimore" at Hong Kong. It seems, however, that the disease has not appeared on the "Baltimore," but there is one case on board the "Concord," which is closely quarantined in the same harbor.

No credence is given here to the report that Pang, late First Secretary of the Chinese Legation at Washington, has been beheaded in China as a result of his official conduct here. If there had been any objection to the Secretary's conduct it is believed the late Minister Tsai, would have been involved in the imperial displeasure, but as a matter of fact, Tsai since his return to China, has been promoted to one of the highest positions in the Chinese Government corresponding to one of our cabinet places.

BALTIMORE, Feb. 17.—Rev. Father Chown, died recently and it was supposed to be a case of self destruction. Suspicions of poisoning now fall on Dr. Gremien who attended the dead priest, and who is now in jail on a charge of conspiracy and fraud in connection with the will of John Forest. Father Chown's body will be examined and an examination made.

CHICAGO, Ill., Feb. 17.—One of the heaviest rate wars of recent years is now threatened between the Atchison and Southern Pacific roads. The Southern Pacific boycotting the Atchison tickets is what has brought on the trouble. It is believed that possibly before the trouble is over people may go from the Missouri river to the Pacific coast for \$5. Being in the hands of receivers and not compelled to earn more than operating expenses, the Atchison is in good shape for the fight, while the Southern Pacific is obliged to be more conservative. It's officers declared today that they had not been the aggressors, but, if forced into a fight they would be there at the finish.

The grand jury today indicted Lieutenant Mancy for the murder of Captain Heiberg of the regular army at Fort Sheridan.

PITTSBURG, Feb. 17.—The jury in the case of the Mansfield Valley miners, charged with riot, who returned to consider a verdict last night, came into court this morning, finding thirty-seven guilty and twenty-one innocent.

NEW YORK, Feb. 17.—Bill Nye is reported dying. He is lying ill at the Hotel Imperial, Niagara Falls, and his manager has cancelled all engagements for next week.

OMAHA, Feb. 17.—Late to-night a copy of the order made by Judges Chase and Sanborn in the Union Pacific wage case was received in Omaha. It provides a suspension of Judge Dundy's order and requires a conference between the receivers and employees before the Court shall interfere in the wage matter.

WASHINGTON, Feb. 16.—After two days spent by the Senate considering Cleveland's appointment of Peckham of New York, to be Associate Justice of the Supreme Court, the Senate voted on the appointment and rejected it by a vote of forty-one to thirty-two. This is the second rejection of the President's nominee for the Associate Justiceship, the first being Hornblower.

NEBRASKA CITY, Neb., Feb. 16.—Morton, Secretary of Agriculture, and his youngest son Carl, were hanged in effigy here last night, on account of supposed dissatisfaction among the Democrats over recent appointments made by the Secretary. The guilty parties will be prosecuted if caught.

LOS ANGELES, Cal., Feb. 16.—Desperadoes ditched the northbound Southern Pacific train this morning near here, blew the side of the express car open with dynamite and got a number of sacks of coin, but could not enter the overland stage. An indiscriminate firing was kept up but no passengers were hurt. A sheriff's posse is after the robbers.

PARIS, Feb. 16.—The Rothschilds bank in this city is guarded by an extra force of police, as the result of anarchist placards posted on the door of the bank announcing that a meeting of the society would be held inside the building, and requesting brethren skilful in the locksmith trade to bring their skeleton keys and crowbars, in case of the safes being locked.

CHICAGO, Feb. 16.—Judge Brentano, who tried Prendergast, Mayor Harrison's assassin, received a letter threatening his life unless he was lenient with the prisoner. Officers guarded him today while hearing arguments for a new trial.

The charge was made several days ago that Secretary Gresham has had a long letter from President Dole to Minister Willis in his possession more than a week, and that it was with held from the House for fear that the terrible arraignment of Willis for his double dealing since arriving in Honolulu, which it contains, would have defeated the cuckoo resolution which the House was fairly driven to adopt last week, and the charge has not been denied. It certainly looks as though the administration were determined to sink itself to the bottom of the pit of public infamy in dealing with Hawaii. Minister Dole's letter is said to be something like ten thousand words long and to go into minute particulars concerning the acts of Minister Willis. The administration people are claiming that Senator Morgan has been "placated" and that he will join Senators Butler and Gray in the majority report of the Hawaiian investigation, which will jump on ex-Minister Stevens and let paramount Blount and the administration down easy.

OUR WASHINGTON LETTER.

Correspondence of The Record.

WASHINGTON, February 15, 1894.

The Cleveland tariff bill is to be reported to the Senate this week. It is not to be torn all to pieces by the Finance Committee as many had expected. It is only to be sufficiently amended before being reported to gain the support of those Democratic Senators who had announced their intention to vote against it unless their demands were complied with. Nothing has yet been officially given out concerning these amendments, but it is regarded as certain that they will include a duty on sugar, both raw and refined, and a duty on coal. These concessions to the Senators from Maryland, Virginia, West Virginia and Louisiana, are not to be called protection. So the claim is to be made by the committee that these duties are levied solely for revenue purposes and with no intention to protect these industries. As a matter of fact, hard fact these proposed amendments are not pleasing to the Democrats, except those from the states that will be benefited, and they are only to be made because the bill cannot be passed with even four Democratic Senators against it, and as an offset the duties on a number of articles principally produced in states that are reliably Republican are to be still further reduced. The income tax is to remain in the bill, unless struck out by a vote of the Senate. The Republican Senators will probably hold a conference as soon as the bill is reported, in order to determine upon the plan of opposition they will follow. The advisers they are receiving from their constituents are somewhat contradictory. Some want them to merely put themselves on record as opposing the bill and then allow it to pass; others want them to use every legitimate parliamentary method to delay or defeat it.

Colonel E. T. Lee, of Monticello, Ill., Secretary of the Shiloh Battle Field Association, is in Washington for the purpose of presenting to the congressional committee the memorial adopted by the association, asking Congress to purchase the battle field of Shiloh and turn it into a national memorial park. The Association at a recent meeting held at Indianapolis designated Senators Harris of Tennessee, Sherman of Ohio and Vilas of Wisconsin, a committee to take charge of the memorial in the Senate and the following Representatives to perform a like duty in the House: Col. D. B. Henderson of Iowa, Gen. Joseph Wheeler of Alabama, and Gen. John C. Black of Illinois.

Representative Geary—"Chinese Geary," he is often called—of California, is a Democrat, but not a cuckoo, as will be seen by the following language of his: "I have as much respect for the President as any one else, but I do not see why Congress should first learn the wishes of the President or consult the wishes of the executive departments before legislating. Congress is here to pass laws without consulting anybody and I, for one, am growing tired of the constant interference of the executive departments in the work of Congress. Let Congress make its own laws, and if the President does not like them, let him exercise his constitutional prerogative and veto them." That's the most sensible Democratic speech of the session.

The silver men are on top in the House, and the passing of Mr. Bland's bill for the coinage of the seigniorage is regarded as an assured fact, although its opponents are still fighting it hard and will continue to do so to the end, by filibustering or by any other method that promises to serve their purpose. They are talking very rather strongly, and it is said that some of the Democrats who will vote for the bill will do so merely to square themselves with their silver constituents, expecting the bill to be vetoed if it gets through Congress.

Don't Encourage Human Tricks. Let the boy fish, boat, canoe, swim and tramp through the woods on exploring trips to his heart's content. Go with him if possible and encourage his healthy exercises and observations as much as possible, but don't teach him, nor allow him to become, unkind and unkindly tricks. Upon nearly every one of turned or feathered things seen during June and July depends a family of helpless lives, which may be doomed to the miseries of slow starvation by one thoughtless shot.

The boy with the firearm sees a bird and says, "Watch me pluck him," and if the aim prove true the boy thinks he has done something clever, and most likely his fond father tells him that he has so done. In reality he has broken a law and probably sounded the doom of half a dozen wretched fledglings hidden in a nest near by. Men will cheerfully give up a handful of dollars for the privilege of drinking in the wondrous melody of the trained throat of a Patti and go into raptures over the sweetness and the elevating influence of perfect music, yet the same men will blithely murder a poor little feathered Patti and still forever live and sing such as no Patti ever aspired to—in die, destroy what the concentrated brains and skill of the world cannot replace.

And for what purpose? Simply to gratify a taste for the shambles, or to show off—to prove that an eye can glance along a bit of iron or steel truly enough to insure the planting of a unguet of lead within the limit of a poor unsuspecting creature's body—to kill a beautiful, happy bird.—Outing.

A Good Use For Last Season's Dresses. The enormously increased price of woman's gowns, it is claimed by the dressmakers, is due to the portentious size of the sleeves. Eight yards of silk is reported as the allowance made for these befrilled and beflowered elements of the gown in Paris, which accounts perhaps for the fashion of using a different material for the sleeves. Anyway the women who are desparingly questioning, "What shall we do with our last season's gowns?" may find here the happy solution of the question—make them into sleeves for this season's dresses.

The Best Medicine

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:

"Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employes for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely cured."

Permanently Cured by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colic. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above.

"I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other Pill I ever sold."—J. J. Perry, Spottsylvania C. H., Va.
